

Trojan Professional Services

Products and Services Overview

Benefit Service provides an entire team of qualified dental benefit experts at your service. Our staff works as an extension of your staff to obtain patient dental group benefit information in a concise, easy-to-read format on your computer. Let us do the research while you attend to patients.

Custom Benefit Option and Patient History are available when you upgrade your basic support. These services are optional and provide your office with additional codes/ benefits research and patient-specific information beyond our traditional plans.

Eligibility provides patient-specific eligibility and benefits directly from insurance carriers.

Collection Services utilizes the power of the three largest credit bureaus in the United States: Experian, TransUnion, and Equifax. When patients won't pay attention to you, third party intervention makes all the difference. Account Recovery is more than a letter system. We call the debtor and work to get your bill paid. Express Collect® enables you to submit Collection Services transactions, using our software from the convenience of your computer, to collect your past due receivables.
