

TROJAN PROFESSIONAL SERVICES

Dear Trojan Client,

I'm writing in regard to pending legislation that will affect the way your office collects past due accounts.

This pending legislation is H.R. 5330, the Consumer Protection for Medical Debt Collections Act, sponsored by U.S. Representative Rashida Tlaib, D-MI. This legislation would prohibit your office from engaging in activities to collect or attempting to collect medical debt (this includes dental debt) for TWO years. The Act would delay the ability to report medical debt to the credit reporting bureaus for ONE year. Also, if passed, H.R. 5330 would create a ban on reporting debt arising out of "medically necessary procedures." If this legislation became law as written, H.R. 5330 would be a deadly blow in collecting past due debts owed to your office.

Trojan strongly urges you to engage with your Member of Congress and their staff directly about the ways this legislation will affect your business. You can do this by selecting the "CLICK HERE TO ALERT YOUR REPRESENTATIVE" link below.
