

# Integrated Benefit Service

Benefit Research for You Today, and Every Day!

Integrating Benefit Service allows you to have dental category percentages entered into the patient's coverage tables with a simple linking process, ready for immediate billing, treatment planning, and estimating your patient's portion.

Or, you can choose the Trojan Benefit Service desktop program. Just as easily search by employer name, group number, or insurance carrier with this version. Printable plan sheets can be shared or stored in your patient records.

Don't find what you are looking for? Our Customer Service department can be reached for help searching through the available plans. Need Trojan to research a plan for you? We will contact the insurance carrier, stay on hold to obtain benefits, and return the new Trojan Benefit Plan to your office.

Each format of Trojan Benefit Service provides you with tens of thousands of national, state, and local Trojan Benefit Plans at your fingertips.

## Benefit Service Provides Your Office With:

- A comprehensive breakdown of group benefits, by employer
- Over 80 questions answered in every single breakdown
- Call-in service to request additional group benefits
- Client Service available in 1 minute or less
- Additional Patient History
- Optional Custom Benefits tailored to your office needs

## Trojan's Helpline:

- Current information on ADA codes
- Assistance with choosing correct codes for treatment rendered
- Investigation of denied claims
- Help determining coordination of benefits with primary and secondary
- Access to our Ask the Consultant Panel for billing and business questions

Trojan Professional Services is proud to have provided insurance verification for our industry since 1976. To do so, we've partnered with other software companies to develop the format that displays Trojan's Benefit Plans in your own practice management program's coverage tables and treatment plans. Please contact your practice management software support for questions or suggestions to improve the viewer or coverage table.
